

# PNY® Solid State Drives

## 2.5" SATA II / USB 2.0

PNY's line-up of 2.5" SATA II solid state drives make a great choice as a drop-in replacement for most laptop hard drives. Because SSDs are "Solid State" and contain no moving parts, they're much more durable than traditional Hard Disk Drives. SSDs also tend to be lighter and consume less power than your standard hard drives.
